EDUCATION

This chronological gap noted post residency and before the opening of Blue Mesa Foot & Ankle Centers can be attributed to the development of that business.

PODIATRIC SURGICAL RESIDENCY, (PSR-12) February 13th 2000 - February 13th 2001, Community Hospital of Gardena

This chronological gap noted post doctorate and previous to starting my residency is explained as follows is explained as follows. — My residency was closed due to the tragic death of several of the Directors family members. Regrettably and understandably he choose not to continue with that responsibility. Several weeks before my graduation my mother passed away and during the funeral my brothers son committed suicide. At the time I had a solid commitment from a willing hospital who was interested in developing a needed Podiatric surgical residency. Since I place family before career I welcomed the break to care for my family members. The program development failed and I was awarded the surgical program in Gardena Ca and received the assignment.

DOCTOR OF PODIATRIC MEDICINE, May 1993 - May 1997 University of Osteopathic Medicine and Health Sciences College of Podiatric Medicine and Surgery, Des Moines, Iowa
